Objective

Aspiring Web and Software Developer skilled in HTML, CSS, PHP, Java, and Python. Experienced in Oracle Cloud Infrastructure and strong in problem-solving. Passionate about building scalable, user-focused applications and contributing to innovative software development.

Education

B.E. Computer Science Engineering

11/2022 - Present

V.S.B College of Engineering Technical Campus

GPA: 8.1/10 | Focus: Software Development, Database Management, Backend Technologies & Testing.

Projects

1. Event Management Website

Technologies Used : HTML ,CSS ,PHP ,MySQL AND JavaScript.

- Developed a dynamic website to manage events, registrations, and schedules.
- Designed an intuitive UI to enhance user experience and accessibility.
- Implemented responsive design to ensure smooth event booking across devices.

2. OTP Tracker – A Lightweight OTP Detection and Authentication System

Technologies Used : Java, Android SDK, SMS Broadcast Receiver, Regex, Firebase.

- Developed a lightweight application to automatically detect and capture OTP from incoming SMS.
- Implemented pattern matching to extract verification codes quickly and improve authentication process.
- Designed the system to read OTP messages and assist faster user login without manual typing.
- Implemented message monitoring to detect OTP codes and analyze the source application.

Workshops Attended

Data Visualization Using Python

08/2023

K.S.R College Of Engineering

- Gained hands-on experience in data import and visualization using Python.
- Developed skills in creating charts and graphs to interpret and present data insights effectively.

Inplant Trainee

Codebind Technologies

02/2023

[Codebind Technologies](#)

- Completed training in Java, HTML, CSS, and JavaScript, gaining hands-on experience in front-end and back-end development concepts and best practices.
- Worked on web development tasks to understand real-time project workflows and coding standards.

Certifications

[Oracle Cloud Infrastructure Certification](#)

05/2024

Oracle University

Skills: Oracle Cloud Infrastructure (OCI), Cloud Architecture, Cloud Security, Cloud Networking, Cloud Operations.

[Introduction for MongoDB](#)

01/2024

[MongoDB University](#)

Skills: MongoDB, NoSQL Database Design, CRUD Operations, Data Modeling, Query Optimization.

Technical Skills

- Programming Languages: Java (Core & Advanced), Python, SQL
- Web Development: HTML, CSS, JavaScript
- Database Management: MySQL, MongoDB
- Tools & Version Control: Git, GitHub, VS Code
- Data Handling & Analytics: Excel, Python (Pip)

DECLARATION

I hereby declare that above mentioned information is correct up to my knowledge.
